**1. Nature of Operations**

Tinka Resources Limited (the “Company”) was incorporated on September 15, 1987 under the provisions of the Company Act (British Columbia). The Company is listed and traded on the TSX Venture Exchange (“TSXV”) and the Lima Stock Exchange under the symbol “TK”, on the OTCQB under the symbol “TKRFF” and on the Frankfurt Exchange under the symbol “TLD”. The Company’s principal office is located at #1305 - 1090 West Georgia Street, Vancouver, British Columbia, V6E 3V7 Canada.

The Company is a junior mineral exploration company currently engaged in the acquisition and exploration of mineral properties located in Peru. On the basis of information to date, the Company has not yet determined whether these properties contain economically recoverable ore reserves. The underlying value of the mineral resource interests is entirely dependent on the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete exploration and development and upon future profitable production. Mineral resource interests represent costs incurred to date, less amounts amortized and/or written off, and do not necessarily represent present or future values.

As at December 31, 2021 the Company had working capital in the amount of \$9,844,900. These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business operations for the foreseeable future. To date the Company has not earned any revenue and is considered to be in the exploration stage. The Company’s operations are funded from equity financings which are dependent upon many external factors and may be difficult to impossible to secure or raise when required. Although management considers that the Company has adequate resources to maintain its core operations and planned exploration programs on its existing exploration and evaluation assets for the next twelve months, the Company recognizes that exploration expenditures may change with ongoing results and, as a result, it may be required to obtain additional financing. While the Company has been successful in securing financings in the past there can be no assurance that it will be able to do so in the future.

In March 2020 the World Health Organization (“WHO”) declared the outbreak of a novel coronavirus, identified as “COVID-19”, as a global pandemic. In order to combat the spread of COVID-19 governments worldwide have enacted emergency measures including travel bans, legally enforced or self-imposed quarantine periods, social distancing and business and organization closures. Mining and exploration activities has, to a large extent, continued uninterrupted. The Company has implemented safety and physical distancing procedures, testing protocols and is encouraging its employees to be vaccinated. The Company will continue to monitor the impact of the COVID-19 outbreak, the duration and impact which is unknown at this time, as is the efficacy of any intervention. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operations in future periods.

**2. Basis of Preparation**

***Statement of Compliance***

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”), and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”). These condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended September 30, 2021, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies followed in these condensed consolidated interim financial statements are consistent with those applied in the Company’s consolidated financial statements for the year ended September 30, 2021

***Basis of Measurement***

The Company’s condensed consolidated interim financial statements have been prepared on the historical cost basis except for the revaluation of certain financial assets and financial liabilities to fair value. These condensed consolidated interim financial statements are presented in Canadian Dollars unless otherwise stated.

**6. Exploration and Evaluation Assets (continued)**

*Colquipucro and Ayawilca Projects*

As at December 31, 2021 the Colquipucro and Ayawilca projects comprise a total of 59 mineral claims granted in the Province of Daniel Alcides Carrion, Peru.

The Company is required to issue 500,000 common shares to Sierra Peru Pty Ltd. (“Sierra”) in the event that a positive feasibility study is prepared on either of the Colquipucro or Ayawilca projects. Sierra also retains a right to a 1% net smelter royalty (“NSR”) from any production from 46 of the 59 mineral claims that make up the Colquipucro and Ayawilca projects. The NSR can be purchased at any time for US \$1,000,000.

*Other*

On June 16, 2021 the Company entered into an acquisition agreement with BHP World Exploration Inc. Sucursal del Peru (“BHP Peru”) in which the Company paid \$177,176 (US \$145,000) and acquired 37 mineral claims (the “Silvia Project”) located in the Huanuco Andean region of central Peru. BHP Peru retains a right to a 1% NSR. The NSR can be repurchased at any time for US \$8,000,000 on or before July 8, 2036.

As at December 31, 2021 the Company has three granted mining concessions and six applications at three exploration target areas in Central Peru.

Expenditures incurred by the Company in Peru are subject to Peruvian Value Added Tax (“VAT”). The VAT is included in exploration and evaluation assets as incurred. Under Peruvian law VAT paid can be used in the future to offset amounts resulting from VAT charged on sales. Under certain circumstances and subject to approval from tax authorities a Company can also apply for early refund of VAT prior to generating sales. As at December 31, 2021 the Company has a VAT balance of \$3,443,517 (September 30, 2021 - \$3,370,885).

**7. Share Capital**

(a) *Authorized Share Capital*

The Company’s authorized share capital consists of an unlimited number of common shares without par value. All issued common shares are fully paid.

(b) *Equity Financings*

No financings were conducted during the three months ended December 31, 2021 and fiscal 2021.

(c) *Share Option Plan*

The Company has established a rolling share option plan (the “Plan”) in which the maximum number of common shares which can be reserved for issuance under the Plan is 10% of the issued and outstanding shares of the Company. The minimum exercise price of the options is set at the Company’s closing share price on the day before the grant date, less allowable discounts. Options granted may be subject to vesting provisions as determined by the Board of Directors and have a maximum term of ten years.

During the three months ended December 31, 2021 the Company did not grant any share purchase options.

During the three months ended December 31, 2020 the Company granted share options to purchase 300,000 common shares and recorded compensation expense of \$24,000. The Company also recorded additional compensation expense of \$202 on the vesting of share options previously granted.

**TINKA RESOURCES LIMITED**  
**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**FOR THE THREE MONTHS ENDED DECEMBER 31, 2021**  
*(Unaudited - Expressed in Canadian Dollars)*

**7. Share Capital (continued)**

The fair value of share options granted and vested during the three months ended December 31, 2020 is estimated using the Black-Scholes option pricing model using the following assumptions:

	<u>2020</u>
Risk-free interest rate	0.32% - 0.33%
Estimated volatility	72%
Expected life	4.25 years
Expected dividend yield	0%
Estimated forfeiture rate	0%

The weighted average measurement date fair value of all share options recognized, using the Black-Scholes option pricing model, during the three months ended December 31, 2020 was \$0.08 per option.

Option-pricing models require the use of estimates and assumptions including the expected volatility. Changes in the underlying assumptions can materially affect the fair value estimates and, therefore, existing models do not necessarily provide reliable measure of the fair value of the Company's share options.

A summary of the Company's share options at December 31, 2021 and 2020 and the changes for the three months ended on those dates, is as follows:

	<u>2021</u>		<u>2020</u>	
	Number of Options Outstanding	Weighted Average Exercise Price \$	Number of Options Outstanding	Weighted Average Exercise Price \$
Balance, beginning of period	13,720,000	0.35	14,377,000	0.36

Balance, end of period	<u>13,720,000</u>	0.35	<u>13,687,500</u>	0.35

The following table summarizes information about the share options outstanding and exercisable at December 31, 2021:

**8. Related Party Disclosures**

A number of key management personnel, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities. Certain of these entities transacted with the Company during the reporting period.

(a) *Transactions with Key Management Personnel*

During the three months ended December 31, 2021 and 2020 the following amounts were incurred with respect to the Company's Chief Executive Officer ("CEO"), Vice-President of Exploration ("VPE") and Chief Financial Officer ("CFO") as follows:

	2021 \$	2020 \$
Management fees - CEO	77,499	77,499
Management fees - VPE	51,417	55,650
Professional fees - CFO	<u>21,600</u>	<u>9,000</u>
	<u>150,516</u>	<u>142,149</u>

During the three months ended December 31, 2021 the Company expensed \$119,666 (2020 - \$108,759) to directors and officers compensation and capitalized \$30,850 (2020 - \$33,390) of compensation paid to the VPE to exploration and evaluation assets.

As at December 31, 2021 \$12,600 (September 30, 2021 - \$3,000) remained unpaid and has been included in accounts payable and accrued liabilities.

Pursuant to various agreements with its CEO and VPE the Company is currently committed to pay up to approximately \$860,000 in the event of termination without cause or a change of control of the Company.

(b) *Transactions with Other Related Parties*

(i) During the three months ended December 31, 2021 and 2020 the following amounts were incurred with respect to the Company's non-management directors and the corporate secretary of the Company:

**9. Segmented Information**

Substantially all of the Company's operations are in one industry, the exploration for base and precious metals. Management reviews the financial results according to expenditures by property. The Company's mineral properties are located in Peru and its corporate assets are located in Canada. The Company is in the exploration stage and, accordingly, has no reportable segment revenues or operating results.

**10. Financial Instruments and Risk Management**

*Categories of Financial Assets and Financial Liabilities*

Financial instruments are classified into one of the following categories: fair value through profit or loss ("FVTPL"); amortized cost; and fair value through other comprehensive income ("FVOCI"). The carrying values of the Company's financial instruments are classified into the following categories:

<b>Financial Instrument</b>	<b>Category</b>	<b>December 31, 2021 \$</b>	<b>September 30, 2021 \$</b>
Cash and cash equivalents	FVTPL	2,696,616	4,041,734
Restricted cash	FVTPL	7,606,800	7,644,600
Accounts payable and accrued liabilities	Amortized cost	(511,898)	(596,196)

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.

Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The recorded amounts for accounts payable and accrued liabilities approximate their fair value due to their short-term nature. The Company's cash and cash equivalents and restricted cash under the fair value hierarchy are measured using Level 1 inputs.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

*Credit Risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash. Management believes that the credit risk concentration with respect to financial instruments included in cash and restricted cash is remote.

*Liquidity Risk*

Liquidity risk is the risk that the Company will not have the resources to meet its obligations as they fall due. The Company manages this risk by closely monitoring cash forecasts and managing resources to ensure that it will have sufficient liquidity to meet its obligations. All of the Company's financial liabilities are classified as current and are anticipated to mature within the next fiscal period. The following table is based on the contractual maturity dates of financial assets and the earliest date on which the Company can be required to settle financial liabilities.

	<b>Contractual Maturity Analysis at December 31, 2021</b>				
	<b>Less than 3 Months \$</b>	<b>3 - 12 Months \$</b>	<b>1 - 5 Years \$</b>	<b>Over 5 Years \$</b>	<b>Total \$</b>
Cash and cash equivalents	2,696,616	-	-	-	2,696,616
Restricted cash	7,606,800	-	-	-	7,606,800
Accounts payable and accrued liabilities	(511,898)	-	-	-	(511,898)
	<b>Contractual Maturity Analysis at September 30, 2021</b>				
	<b>Less than 3 Months \$</b>	<b>3 - 12 Months \$</b>	<b>1 - 5 Years \$</b>	<b>Over 5 Years \$</b>	<b>Total \$</b>
Cash and cash equivalents	4,041,734	-	-	-	4,041,734
Restricted cash	7,644,600	-	-	-	7,644,600
Accounts payable and accrued liabilities	(596,196)	-	-	-	(596,196)

*Market Risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

(a) Interest Rate Risk

The Company is exposed to interest rate risk to the extent that the cash bear floating rates of interest. The interest rate risk on cash and cash equivalents and on the Company's obligations are not considered significant.

(b) Foreign Currency Risk

The Company has operations in Canada and Peru which are subject to foreign currency fluctuations. The Company's operating expenses are incurred in Canadian Dollars and Peruvian Nuevo Soles and the fluctuation of the Canadian Dollar in relation to other currencies will have an impact upon the profitability of the Company and may also affect the value of the Company's assets and the amount of shareholders' equity. The Company also maintains a US Dollar bank account with a Canadian bank. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks. At December 31, 2021, 1 Canadian Dollar was equal to 3.12 Peruvian Nuevo Soles and 0.79 US Dollar.

Balances are as follows:

	Peruvian Nuevo Soles	US Dollars	CDN \$ Equivalent
Cash and cash equivalents	30,585	985,662	1,257,476
Restricted cash	-	6,000,000	7,606,800
Accounts payable and accrued liabilities	<u>(941,838)</u>	<u>(101,989)</u>	<u>(430,971)</u>
	<u>(911,253)</u>	<u>6,883,673</u>	<u>8,433,305</u>

Based on the net exposures as of December 31, 2021 and, assuming that all other variables remain constant, a 10% fluctuation on the Canadian Dollar against the Peruvian Nuevo Soles and US Dollar would result in the Company's net loss being approximately \$845,000 higher or lower.

*Capital Management*

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital and cash. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

**12. Supplemental Cash Flow Information**
